**TO CALCULATE THE VALUE OF AN ASSET**

1. Find the asset in the asset description lists.
2. In the tables above the asset, go to the line for the year the asset was purchased.
3. Multiply the original cost of the asset by the appropriate index factor or trend factor and then multiply that product times the percent good in the block. The resulting amount is the value of the assets.

**NOTE: THE ABOVE TABLES ARE SUBJECT TO CHANGE.**
